

Annual Report

Year ending 30 June 2012

Inside:

- REST financial statements 2012
- Your investment options update

Well, it has certainly been an interesting and challenging year for REST and for the Australian superannuation industry.

Australia is embarking on one of the largest reforms to super since the introduction of the superannuation guarantee contributions in the early 90's and we are pleased to have participated in discussion with government and industry on behalf of our members during this time.

The 'Stronger Super' reforms are aimed at making the super system stronger, more efficient and will over time help maximise retirement income for everyone. The reforms include the introduction of MySuper a new, simple and low cost superannuation product to replace default products. REST already meets many requirements of these reforms for MySuper, so going forward there will be relatively little changes to our offerings.

It's been a busy year for all of us here at REST and some of our key achievements include launching a brand campaign to better connect with the our core members, we've improved switching times from 10 days to 5 business days, refreshed our employer portal and are preparing for the upcoming reforms.

We remain fully committed to our 1.9 million members, and to helping them achieve successful retirement outcomes.

Yours sincerely,

Damian Hill
CEO

This document forms part of our annual reporting to members for the year ending 30 June 2012. The other part of our annual reporting is your Member statement, Important Information and What's New and REST update.

Stronger Super reforms

Australia is embarking on one of the most significant reforms to super since the introduction of the super guarantee (SG). The 'Stronger Super' reforms are aimed at making the super system stronger and more efficient and will help maximise retirement income for all REST members.

While REST already meets many of the requirements of these important reforms we are continuing to streamline our product and processes to maximise our leadership position in the industry and to protect our members' interests.

Key changes that will benefit members include:

- more information about your super contributions from your employer and your super fund so you know how much your employer is paying and when
- changes to the ATO's online Super Seeker service will enable you to search for both lost and active super accounts and combine them into your chosen account
- a new 'MySuper' product as a default fund for employers to pay SG contributions. MySuper products will be simple and low cost to members. REST already meets most of the criteria
- a number of 'back end' improvements to the administration of the super industry which will in turn make it easier for REST to look after your super and reduce multiple accounts.
- mandatory data and e-commerce standards to help improve the data and processing across the super industry.

These enhancements are still being developed and will be rolled out between July 2012 and July 2017.

Group life insurance premiums	313.6	269.2
Taxes	272.7	386.7
Total outgoings	2,095.1	1,918.1
Net market value of assets available to pay benefits at end of the financial year	21,991.5	20,444.1

Auditor's approval

We have audited the financial statements of Retail Employees Superannuation Trust for the year ending 30 June 2012 in accordance with Australian Auditing Standards. In our opinion the information reported in the abridged financial statements is consistent with the annual financial report from which it is derived and upon which we expressed an unqualified audit opinion in our report to the members, dated 14 September 2012. For a better understanding of the scope of our audit, this report should be read in conjunction with our audit report on the annual financial report.

Reserves

REST has a number of reserves, including a contingency reserve, capital reserve, group life insurance reserve and administration reserve. As at 30 June 2012, the total reserves were valued at \$156 million. These reserves are maintained and used in accordance with REST's reserving policy, such as to meet any contingencies and provide for future capital requirements, or insurance and administration payments. REST currently has adequate provisions in its reserves.

Movement in REST's reserves

Year	\$ Million
2010	59.5
2011	3.3
2012	(17.3)

REST reserves the right to adjust the crediting rate and/or unit prices in accordance with its reserving policy without prior notice.

Your investment options

REST Industry Super offers 13 investment options to members who have \$1,000 or more to invest. If you have less than \$1,000 in your account, REST will invest your money in our default investment option, Core Strategy. At REST, you can:

- choose not to make an investment choice, in which case you'll be invested in the Core Strategy investment option
- mix and match across all options to create your own portfolio
- choose to invest your current super savings differently to your future contributions
- switch to another option(s). Four switches in each financial year are free. A \$20 fee applies per switch request thereafter.

In addition, it's important to note that:

- your switch will become effective 5 business days after REST receives your request. Where this falls on a weekend or national holiday, your switch will be processed on the next business day
- before switching your investments or leaving the Fund, you should check the current value (in units) of your investment
- if you are in the Core Strategy, you should check the crediting rate that applies prior to leaving.

When looking at REST's investment options on pages 6 to 9, it's important to keep in mind the following investment basics:

- your investment in this Fund is not guaranteed. Past performance is not necessarily an indication of future performance
- the value of your investment can rise or fall
- returns are quoted to give an indication of the expected relative performances of the investment options over the long-term
- we will tell you if more than 5% of the Fund's assets are invested in any one investment. On 30 June 2012, REST had no more than 5% of the Fund's assets invested in any one investment.

What are derivatives?

We allow our investment managers to use derivatives. Derivatives include futures, options and swap contracts. They are used to protect the value of portfolios against falling prices and to enable managers to change their investment exposure in different markets or sectors without buying or selling the actual securities.

The attraction of derivatives is that they can give investors the same degree of market exposure as the underlying assets, but with much lower transaction costs. The significant risk for these types of investments is that losses may occur where there is an adverse movement in the underlying securities. In the long-term, the use of derivatives is expected to increase the Fund's investment returns and reduce risk, although the effect will vary from year to year.

The Fund imposes on its investment managers strict policies and procedures on their use of derivatives.

REST's Property Option

REST's Property Option has a benchmark allocation of 100% to direct property and unlisted property trusts. These investments are not listed and are not traded frequently in the marketplace, such as the share market. They are effectively an "illiquid" asset, which means that they cannot be bought and sold quickly, and valuations are updated less frequently than is the case for listed investments.

Members invested in the Core Strategy investment option

How are returns credited to my account?

If your super is invested in the Core Strategy, a crediting rate is generally calculated twice weekly. Returns are credited to your account at the end of each financial year or earlier if you leave REST Industry Super or switch out of the Core Strategy. Your credited returns may be positive or negative. Taxes, fees, charges and insurance costs will also affect your account balance.

Members not invested in the Core Strategy investment option

What are unit prices and why do my returns fluctuate?

If you invest in the Structured or Member-tailored Options, your money will purchase a number of units in the investment option(s) of your choice. The number of units purchased depends on the value of the units (called the unit price) at the date of purchase.

The value of your account balance may go up and down, depending on variations to the unit price of your chosen investment option(s) and the amount of taxes, fees, charges and insurance costs applied to your account. Your member statement will show your account balance as a dollar value and as a number of units for the Structured and Member-tailored Options.

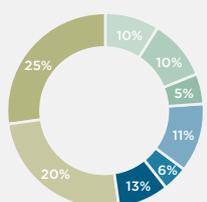

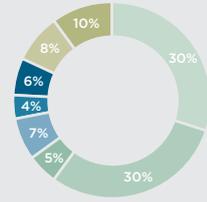

Who's managing your money?

REST has carefully selected external investment managers. These investment managers, alongside the Fund's wholly-owned investment manager, Super Investment Management Pty Limited, undertake the day to day management of the Fund's investments.

Investment options with an exposure to the Australian shares asset class may include companies listed in Australia whose legal domicile is overseas. In addition, up to 10% of this asset class may be invested in stocks listed on the New Zealand Stock Exchange.

[†] Crediting rates have differed from actual earning rates in some years, and for more information visit www.rest.com.au and click on Performance & Investments.

1 Objective – This is the goal or objective of the investment option.

2 Target return – This is what the Trustee uses to determine asset allocation. It is also used to measure if the investment objective is met. It is not a guaranteed rate of return.

3 Asset allocation – For the Core Strategy option, the asset allocation will vary year to year within the ranges shown in brackets. This also means the allocation to defensive assets and growth assets will vary from time to time.

Balanced	Diversified	High Growth																																												
A good balance of risk and return by investing in approximately equal proportions of growth assets and defensive assets.	Strong returns over the longer term by investing in a diversified mix of assets weighted towards shares and other growth assets.	Maximise returns over the long-term by investing predominantly in growth assets.																																												
CPI + 2% pa over the medium-term (rolling 4 year periods).	CPI + 3% pa over the long-term (rolling 5 year periods).	CPI + 4% pa over the very long-term (rolling 7 year periods).																																												
45% defensive, 55% growth A balanced mix of shares and bonds, property, infrastructure, alternative assets and cash.	20% defensive, 80% growth Mainly shares, property, infrastructure and alternative assets, with some bonds and cash.	5% defensive, 95% growth Shares, property, infrastructure and alternative assets.

For all options other than the Core Strategy:

- The allocation to an individual asset class may vary by +/- 5% from the benchmark allocation shown, but not below 0% or more than 100% for an individual asset class;
- Where an option does not currently have a benchmark allocation to Cash, an allocation of up to 5% may be introduced; and
- The overall allocation to growth assets and defensive assets may vary by +/- 10% from the allocation shown.

REST's Trustee reserves the right to vary the asset allocations, including the benchmarks and ranges, of all or any of the investment options, introduce new options or close existing options without prior notice.

4 Standard Risk Measure - This is a guide as to the likely number of negative annual returns expected over any 20 year period. See 'What is the Standard Risk Measure?' on page 4.

5 The risk band and risk level is based on the Standard Risk Measure. The Standard Risk Measure ranges across seven risk bands, from 1 (very low risk) to 7 (very high risk).

6 What this option has returned - Returns are quoted at 30 June each year after fees not directly charged to your account and taxes have been deducted. The returns stated are correct as at 30 June 2012. Please note that past performance is not an indication of future performance.

Your investment options (cont).

	Member-tailored options					
	Basic Cash		Cash		Bond	
Objective¹	Provide members with the opportunity to construct portfolios that are appropriate to their own particular circumstances. A member's portfolio may be constructed from one or more of the Basic Cash, Cash, Bond, Property, Shares, Australian Shares and Overseas Shares options, as well as from the Structured options and the Core Strategy. This permits the construction of members' portfolios with an extremely wide range of risk/return objectives.					
Target return²	Match the return of the Reserve Bank cash rate target before tax and before fees over rolling 1 year periods.		Perform in line with the UBSA Bank Bill Index (before tax and after fees) over rolling 1 year periods.		Outperform the benchmark return (before tax and after fees) over rolling 2 year periods. The benchmark is calculated using the UBSA Composite Bond Index, UBSA Inflation Linked Bond Index, Citigroup World Government Bond Index (hedged), and Barclays Global Inflation linked Index (hedged).	
Asset allocation³	100% defensive The portfolio will invest in deposits with, or short-term discount securities (bank bills and negotiable certificates of deposit) issued by, banks rated at least AA- at the time of purchase. It may also invest in short-dated debt issued and guaranteed by the Australian Commonwealth or State Governments. All securities will have a maximum term to maturity of one month.		100% defensive A portfolio of securities with a low level of interest rate risk (12 months or less), including bank deposits, bank bills, commercial paper and floating rate notes, for example, residential mortgage backed securities.		100% defensive A mixture of Australian and overseas debt securities issued by Governments, semi-government authorities and companies. Bonds typically have a fixed coupon paid on a regular basis and are exposed to both interest rate risk (the impact that changing interest rates have on bond values) and default risk.	
	 ■ Cash securities 100%		 ■ Cash securities 100%		 ■ Bonds 100%	
Time horizon	Very short: less than three months		Short: 1 to 2 years		Short to medium: 3+ years	
Standard risk measure⁴	Estimated number of negative annual returns over any 20 year period, less than 0.5 of a year		Estimated number of negative annual returns over any 20 year period, less than 0.5 of a year		Estimated number of negative annual returns over any 20 year period, 3 to less than 4	
Risk band and level⁵	Risk band 1, Very Low		Risk band 1, Very Low		Risk band 5, Medium to High	
What this option has returned⁶	The Basic Cash option was introduced on 1 July 2009					
	2010	3.09%	2008	5.00%	2008	3.95%
	2011	4.17%	2009	1.92%	2009	4.54%
	2012	3.78%	2010	4.64%	2010	12.44%
			2011	4.63%	2011	6.90%
			2012	3.92%	2012	8.86%
	The three year compound average was	3.68%	Five year compound average	4.01% pa	Five year compound average	7.29% pa

Investment options with an exposure to the Australian shares asset class may include companies listed in Australia whose legal domicile is overseas. In addition, up to 10% of this asset class may be invested in stocks listed on the New Zealand Stock Exchange.

1 Objective – This is the goal or objective of the investment option.

2 Target return – This is what the Trustee uses to determine asset allocation. It is also used to measure if the investment objective is met. It is not a guaranteed rate of return.

3 Asset allocation – For the Core Strategy option, the asset allocation will vary year to year within the ranges shown in brackets. This also means the allocation to defensive assets and growth assets will vary from time to time.

For all options other than the Core Strategy:

- The allocation to an individual asset class may vary by +/- 5% from the benchmark allocation shown, but not below 0% or more than 100% for an individual asset class;

Property	Shares	Australian Shares	Overseas Shares
----------	--------	-------------------	-----------------

Provide members with the opportunity to construct portfolios that are appropriate to their own particular circumstances. A member's portfolio may be constructed from one or more of the Basic Cash, Cash, Bond, Property, Shares, Australian Shares and Overseas Shares options, as well as from the Structured options and the Core Strategy. This permits the construction of members' portfolios with an extremely wide range of risk/return objectives.

Outperform both the Mercer Unlisted Property Index (before tax and after fees) over rolling 3 year periods and the 10 year bond rate plus 3% pa (after fees) over rolling 5 year periods.	Outperform the benchmark return (before tax and after fees) over rolling 3 year periods. The benchmark is calculated using the S&P/ASX 300 Accumulation Index and the MSCI All Country World ex-Australia Index in \$AUD.	Outperform the S&P/ASX 300 Accumulation Index (before tax and after fees) over rolling 3 year periods.	Outperform the MSCI All Country World ex-Australia Index in \$AUD (before tax and after fees) over rolling 3 year periods.

Five year compound average	2.40% pa	Five year compound average	-3.25% pa	Five year compound average	-1.71% pa	Five year compound average	-5.28% pa

- Where an option does not currently have a benchmark allocation to Cash, an allocation of up to 5% may be introduced; and
- The overall allocation to growth assets and defensive assets may vary by +/- 10% from the allocation shown.

REST's Trustee reserves the right to vary the asset allocations, including the benchmarks and ranges, of all or any of the investment options, introduce new options or close existing options without prior notice.

4 Standard Risk Measure - This is a guide as to the likely number of negative annual returns expected over any 20 year period. See 'What is the Standard Risk Measure?' on page 4.

5 The risk band and risk level is based on the Standard Risk Measure. The Standard Risk Measure ranges across seven risk bands, from 1 (very low risk) to 7 (very high risk).

6 What this option has returned - Returns are quoted at 30 June each year after fees not directly charged to your account and taxes have been deducted. The returns stated are correct as at 30 June 2012. Please note that past performance is not an indication of future performance.

Who's in charge?

An eight-member Board of Directors meet regularly to discuss a range of issues relating to the management of REST and the investment of members' money. They are the Directors of the Fund's Trustee company, Retail Employees Superannuation Pty Limited ABN 39 001 987 739. The Trustee's job is to manage the Fund on your behalf. The Directors receive no payment for their duties and neither does the Trustee company.

Of the eight Directors, four represent employees and are nominated by the Shop Distributive and Allied Employees Association (SDA). The other four Directors are nominated by and represent employers, including three major employers participating in REST, and the Australian National Retailers Association (ANRA).

This means that employees and employers are equally represented.

Departures and arrivals

Effective 21 March 2012, Steven Priestley resigned as a Director, and Glenda Ralph and Clifford Allison resigned as Alternate Directors for Steven Priestley. Clifford Allison was appointed as a Director effective 22 March 2012, and Glenda Ralph and Steven Priestley were appointed as Alternate Directors for Clifford Allison, also effective 22 March 2012.

On 11 April 2012 Douglas Cannen resigned as an Alternate Director to Rohan Jeffs.

Glenda Ralph and Steven Priestley were appointed as Alternate Directors for Margaret Osmond and Rohan Jeffs effective 28 June 2012.

Margaret Osmond resigned as a Director effective 17 August 2012. Glenda Ralph and Steven Priestley resigned as Alternate Directors for Margaret Osmond effective 17 August 2012.

As at 30 June 2012 the representatives of the Board were:

Employee representation	Appointed by
Joe de Bruyn (Board member since 1988)	SDA
Sue-Anne Burnley (Board member since 1996)	SDA
Geoff Williams (Board member since 2008)	SDA
Ian Blandthorn (Board member since 2008)	SDA
Employer representation	Appointed by
Rohan Jeffs (Board member since 1990)	Woolworths
Margaret Osmond (Board member since 2007)	ANRA
Clifford Allison (Board member since 2012)	Coles Group
Duncan Shaw (Board member since 2010)	Myer

The Directors are supported by a number of Board Committees (which include Investment, Audit, Risk and Compliance, Administration, Strategy Review and Insurance).

The Directors are also supported by Trustee staff who handle the day to day operations of the Fund and external advisers.

Indemnity insurance

The Fund, the Directors and Officers of the Trustee are covered by professional indemnity insurance primarily through the Chubb Insurance Company of Australia Ltd.

Advisers and service providers

The following advisers assist the Trustee to provide members with professional service and management. The advisers have been appointed on the basis of quality and cost effectiveness.

None are associated with the Trustee, its Directors or its staff.

Trustee liability insurance

The Chubb Insurance Co of Australia Ltd
Chartis Australian Insurance Limited
Liberty International Underwriters

Employers in arrears

Sometimes employers can be late with their contributions. While it is often an administrative oversight, we take it seriously and believe contributions should be made to members' super accounts in a timely way.

During 2011/12, REST referred these employers to Industry Funds Credit Control Pty Ltd (IFCC) who collected \$13,774,250.89 from employers in arrears. As at 30 June 2012, 3,876 employers remained overdue with employee super payments by at least 90 days. Legal action may be initiated if contributions remain unpaid after contact by IFCC.

Keeping your details up to date

To receive updates on your super, remember to let us know if you change your address or employer. It's easy to update your details. Simply login to MemberAccess at www.rest.com.au and change your details online. If you don't already have a PIN, you can register for one online. Alternatively, call or write to us to advise your change of details.

Temporary residents

A temporary resident who is not a citizen of Australia or New Zealand, is only able to withdraw their superannuation benefits under limited conditions of release. Once 6 months has elapsed since the temporary resident departed Australia, or the Visa has ceased to be of effect then the Australian Taxation Office can require the superannuation fund to transfer the account to it as unclaimed moneys. The moneys can be claimed from the Australian Taxation Office by the temporary resident. If REST is required to transfer your superannuation benefit to the Australian Taxation Office, you will not receive an exit statement from REST. For more information go to our website.

Eligible Rollover Fund (ERF)

REST has a broad power to transfer a member's benefits to another fund, called an Eligible Rollover Fund or ERF. REST may roll over your benefits to its ERF if:

1. REST has attempted to contact you and correspondence has been returned unclaimed (i.e. you are a 'lost member') and you have an account balance that is insufficient to pay REST's fees, or
2. REST has been advised that you:
 - have left your employer,
 - have an account balance that is insufficient to pay REST's fees (note that this amount can vary depending on total investment returns relative to fees), and
 - have not advised REST where you would like to roll over your benefits.

REST's ERF is AUSfund and you may contact AUSfund as follows:

AUSfund	Phone 1300 361 798
PO Box 2468	Email admin@ausfund.net.au
Kent Town SA 5071	Web www.unclaimedsuper.com.au

When your benefits are transferred into an ERF, they may be affected because:

- you will cease to be a REST member and will no longer have any insurance cover
- you will become a member of AUSfund and will be subject to its governing rules. If REST can provide AUSfund with your contact details, AUSfund will send you its Product Disclosure Statement (PDS)
- AUSfund is required to 'member protect' your benefits. Generally, this means you will not be charged administration fees if your investment returns are insufficient to cover the cost, however, government taxes are still deducted
- AUSfund will invest your benefits in a diversified investment strategy, which may provide lower returns than the investment option(s) in which your account is invested in REST.

Compliments and complaints

If you have a compliment, we would love to hear from you. If you have a concern or complaint, please contact us straight away. We will make every effort to resolve your problem quickly. You can make a formal complaint to REST online or by phone, email or letter noting that you wish to lodge a complaint.

To lodge a complaint online

Visit our website www.rest.com.au and click on 'Contact us' and 'Concerns and Complaints' and follow the instructions.

To lodge a complaint by phone

Call us on 1300 300 778 between 8am and 8pm AEST weekdays.

To lodge a complaint by letter

Please address your concerns to:

The Trustee Services Officer
REST Industry Super
PO Box 350, Parramatta NSW 2124

Please write 'Complaint' on the envelope and the letter.

REST is required to consider your complaint or dispute within 90 days of receiving it. However, in some circumstances it may not be possible to resolve the issue within this period. If the Trustee fails to respond to you within 90 days, or you are not satisfied with the outcome, you may be able to seek an independent ruling from the Superannuation Complaints Tribunal (SCT).

Superannuation Complaints Tribunal (SCT)

The SCT is an independent body set up by the Federal Government to settle certain disputes between members and their super funds. The SCT can only become involved after the Trustee's efforts at reaching agreement have failed (i.e. you must first use REST's dispute procedures). While sincere attempts will be made to help resolve differences between members and funds, in some instances the SCT may need to make a binding ruling. The SCT does not charge members for its service and can be contacted on 1300 884 114.

REST Annual Report 2012: Any advice contained in this information is general advice and has been prepared without taking into account your objectives, financial situation or needs. Before acting on the advice, you should consider the appropriateness of the advice, having regard to your objectives, financial situation and needs. For more information, contact us for a copy of our Product Disclosure Statement which applies to your circumstances. You should read the Product Disclosure Statement before making any decision about the product. The Trustee has no relationships or associations with any other product issuer that might reasonably be expected to influence us in the provision of the advice. Representatives of REST are paid a salary and do not receive any commissions or fees for the advisory services provided to you. They may however receive a performance related bonus that takes into account the financial services provided. No commissions or fees are paid for the financial product advice we provide, either to representative or to third parties. Issued by Retail Employees Superannuation Pty Ltd, ABN 39 001 987 739, AFSL 240003 as the Trustee of the Retail Employees Superannuation Trust ('REST'), ABN 62 653 671 394. Registered office: Level 7, 50 Carrington Street, Sydney NSW 2000 but please write to us at PO Box 350, Parramatta NSW 2124.

Your privacy is important to us: The Trustee knows that keeping your personal information private is very important and we appreciate you trust that we do so carefully and sensibly. Your personal information is very important for the proper management of the Fund. We receive and store information you provide on our secure databases, which are protected in secure facilities. Your information is only accessible by authorised Trustee personnel or authorised service providers who use the information to accurately maintain your account and insurance arrangements. From time to time the Trustee may use general member information for future planning to improve our services to members. Information may be used for the purpose of testing a potential member product or service – including by way of, but not limited to, direct marketing. Unless authorised or required by law or for a purpose set out in the Privacy Policy, the Trustee does not give out information about our members to persons or entities outside our organisation. The Trustee may arrange for a service provider to cross match your personal details with other superannuation funds to help locate any other superannuation accounts in your name. The Trustee may send members communication material, also known as direct marketing material (including marketing material by third parties), about special offers and promotions that are available to members of REST. The Trustee may provide your information to preferred financial services and advice companies that are contracted to provide or assist you with your general and personal advice needs. If you do not want the Trustee to use your personal information to send you direct marketing material or if you do not want REST's preferred financial services and advice companies to contact you in relation to their services, then please phone 1300 300 778. If you do not provide REST with your personal information, you may not be able to receive certain benefits as a member of the Fund. Access to your details is protected. If you would like to review or make any corrections to your personal information login to MemberAccess on the REST website. If you have any questions about our Privacy Policy please phone 1300 300 778.
